

International Professional Educational Program in Logistics and Transport of KazATC named after M.Tynyshpayev in conjunction with CILT (UK)

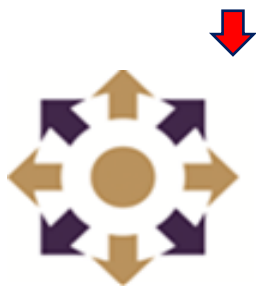

DEAR COLLEAGUES!

We invite young scientists, engineers, managers, middle managers, top managers, executives, and first leaders to participate in specialized training courses «International Diploma in Logistics and Transport».

Kazakh Academy of transport and communications named after M. Tynyshpayev received an official [license](#) to conduct CILT courses.

The Chartered Institute of Logistics and Transport (CILT, UK)

The professional training courses of the KazATC are part of the programs of *The Chartered Institute of Logistics and Transport (CILT, UK)* – a leading professional body, the National Council of CILT International organization in Europe for logistics, transport and integrated supply chain management with offices in more than 35 countries around the world, and on the basis of Licenses to conduct CILT course in Kazakhstan and Central Asia, starting with the course of individual modules to the level of the Diploma of the international sample.

The Chartered Institute of Logistics and Transport (CILT) formerly the chartered Institute of logistics and transport was formed in 1919 and received its Royal status in 1926.

Academic partners of CILT:

Professional training PROGRAM of CILT

1. *CILT International Certificate in Logistics and Transport*

Certificate in Logistics and Transport is a free-standing program of professional education, designed to provide a sound foundation for a career within the transport and supply chain fields and to provide learners with a complete set of management skills.

2. *CILT International Diploma in Logistics and Transport*

The CILT International Diploma in Logistics and Transport is a free-standing program of professional education, designed to provide a sound foundation for a career within the transport and supply chain fields and should provide supervisors, first-line managers and potential middle managers with a complete set of management and operational skills.

3. *CILT International Advanced Diploma in Logistics and Transport*

The International Advanced Diploma aims to give senior managers and leaders professional education of supply chain, strategic management and decision-making skills to enable them to aspire to the highest levels of management. The International Advanced Diploma also includes organizational planning. Students are expected to become familiar with analytical concepts and to use them in their management role. They will be aware of ethical issues, sustainability and global environmental issues. Students will develop skills and research methodology and importantly they will achieve capability to produce a work based project.

The Training period and Method

Our training methods are flexible to suite individual cases and are based on blended learning, including workshops and in company programs. Where appropriate, and initial meeting with potential learners will be held with an output from this meeting of an Action Plan which sets out:

- ✓ The key evidence that will be used to incorporate in the Assignments
- ✓ The agreed sequence and timing for completion of the Assignments

The overall timescale is agreed taking into account the individual's personal & workplace needs. During the program, the Tutor/Assessor will provide direct support with workplace visits and additionally, is always on hand (by telephone or Email) to provide on-going support, advice & direction. **Please**

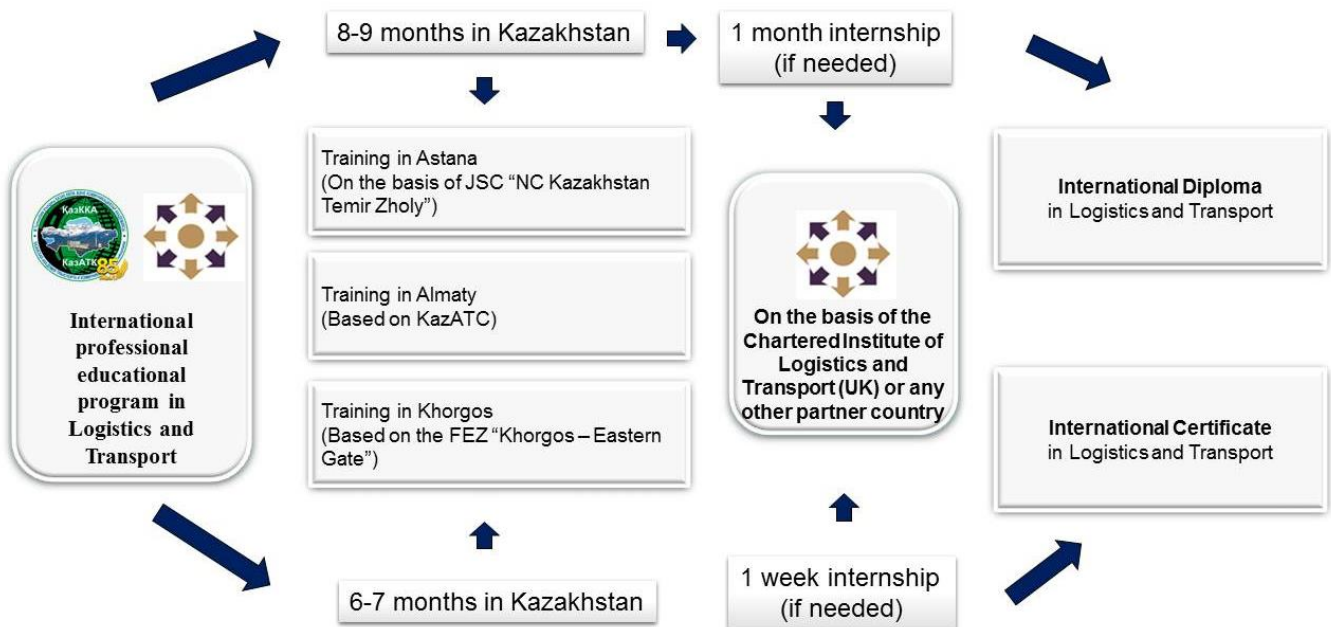

note that should workshop become the preferred method then program will be designed within this method.

Assessment

Each Learner completes each assignment as required and submits this electronically. The completed E-assignment is marked and moderated by qualified Examiner/Assessor and the Learner is given feedback. If there are any shortfalls, these will be highlighted and the Learner does further work and resubmits the revised work. The completed Assignments are then incorporated into the Learner portfolio as evidence of competence.

Scheme of training & Course duration

CILT provides the possibility of an internship in any country of the partners:
